

AIRCRAFT REPAIR SERVICES CERTIFICATE AIRCRAFT REPAIR AND REPLACEMENT PARTS CERTIFICATE

General Purpose:

- (1) This certificate is to be used by the purchaser of aircraft repair services to establish that aircraft repair services are being purchased in connection with:
- aircraft owned or leased by a certificated air carrier;
 - any aircraft having a maximum certificated takeoff weight of 6,000 pounds or more; or
 - the significant overhauling or rebuilding of aircraft or aircraft parts or components on a factory basis.
- (2) This certificate is to be used by the purchaser of aircraft repair and replacement parts to establish that items are to be used exclusively in:
- aircraft owned or leased by a certificated air carrier;
 - any aircraft having a maximum certificated takeoff weight of 6,000 pounds or more; or
 - the significant overhauling or rebuilding of aircraft or aircraft parts or components on a factory basis.

If the aircraft repair services or the aircraft repair and replacement parts are not used in the manner described above, a purchaser who claimed an exemption will owe a use tax on the total price of the repair services or the repair and replacement parts.

Statutory Authority: Conn. Gen. Stat. §12-412(76) and (77).

Instructions for the Purchaser: An owner or officer of a business that is a certificated air carrier or that owns an aircraft with a maximum certificated takeoff weight of 6,000 pounds or more, or a business that is involved in the significant overhauling or rebuilding of aircraft or aircraft parts or components on a factory basis can issue and sign this certificate to advise the seller of aircraft repair services or aircraft repair and replacement parts that the sales and use taxes do not apply for the purchase. This certificate may only be issued for aircraft repair services or aircraft repair and replacement parts as defined in Conn. Gen. Stat. §12-412 (76) and (77). You must keep a copy of

the certificate and records that substantiate the information entered on this certificate for at least six years from the date of the purchase. If you do not have a Connecticut tax registration number, enter the tax registration number assigned by another state and identify the state.

Instructions for the Seller: Acceptance of this certificate, when properly completed, relieves the seller from the burden of proving that the sale and the storage, use or other consumption, of the aircraft repair services or the aircraft repair and replacement parts were not subject to sales and use taxes. The certificate is valid only if taken in good faith from a person who is a certificated air carrier, owns an aircraft with a maximum certificated takeoff weight of 6,000 pounds or more, or is engaged in the significant overhauling or rebuilding of aircraft or aircraft parts or components on a factory basis. The good faith of the seller will be questioned if the seller has knowledge of facts that give rise to a reasonable inference that the purchaser is not a certificated air carrier, owner of an aircraft with a maximum certificated takeoff weight of 6,000 pounds or more, or is not engaged in the significant overhauling or rebuilding of aircraft or aircraft parts or components on a factory basis. Keep this certificate and bills or invoices to the purchaser for at least six years from the date of the purchase. The bills, invoices or records covering all purchases made under this certificate must be marked to indicate that this was an exempt purchase. The words "Exempt under CERT-110" satisfy the requirement.

This certificate can be used for individual exempt purchases, in which event the box marked "Certificate for One Purchase Only" must be checked. The certificate can also be used for a continuing line of exempt purchases, in which event the box marked "Blanket Certificate" must be checked. A blanket certificate remains in effect for a three-year period unless the purchaser revokes it in writing before the period expires.
